## Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- ☒ Coloured covers / Couverture de couleur
- ☐ Covers damaged / Couverture endommagée
- ☐ Covers restored and/or laminated / Couverture restaurée et/ou pelliculée
- ☐ Cover title missing / Le titre de couverture manque
- ☐ Coloured maps / Cartes géographiques en couleur
- ☐ Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)
- ☒ Coloured plates and/or illustrations / Planches et/ou illustrations en couleur
- ☐ Bound with other material / Relié avec d'autres documents
- ☐ Only edition available / Seule édition disponible
- ☐ Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.
- ☐ Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from filming / Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- ☐ Additional comments / Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- ☐ Coloured pages / Pages de couleur
- ☐ Pages damaged / Pages endommagées
- ☐ Pages restored and/or laminated / Pages restaurées et/ou pelliculées
- ☒ Pages discoloured, stained or foxed / Pages décolorées, tachetées ou piquées
- ☒ Pages detached / Pages détachées
- ☒ Showthrough / Transparence
- ☐ Quality of print varies / Qualité inégale de l'impression
- ☐ Includes supplementary material / Comprend du matériel supplémentaire
- ☐ Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image / Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.
- ☐ Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant ayant des colorations variables ou des décolorations sont filmées deux fois afin d'obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below /  
Ce document est filmé au taux de réduction indiqué ci-dessous.

10x		14x		18x		22x		26x		30x	
	12x		16x		20x		24x		28x		32x

The copy filmed here has been reproduced thanks to the generosity of:

Legislative Library of Manitoba  
Winnipeg

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Legislative Library of Manitoba  
Winnipeg

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

# **WINNIPEG**

WELCOMES

*The Manitoba Curling Association*

***Twenty-third Annual Bonspiel***

WINNIPEG

*Week commencing February Eighth  
Nineteen hundred and eleven*

**T**HE STORY OF WINNIPEG is one of the most marvellous and impressive records of growth on the continent. Thirty-five years ago Winnipeg's population was less than 1,000, and the school attendance was only 35 pupils; it was but a post of the Hudson's Bay Company, without churches, streets or railroads, and but a few years previously the Indians chased herds of buffalo across the prairie where the city now stands. It is now the railroad and business centre of the Canadian West. Twenty-two railway tracks radiate from it, and the C.P.R. yard here, with its 120 miles of sidings, is the largest in the world controlled by a single corporation. Winnipeg is the chief central point of the Canadian Northern and Grand Trunk Pacific railway systems—these roads having just built a Union Station at a cost of \$1,500,000. The annual freight receipts handled by all roads amount to over 2,000,000 tons. Three thousand six hundred railway employees reside in the city. It is in the famous Red River Valley and surrounded by good farming, timber and mining districts with extensive lake fisheries. The streets of the city are generally wide, the principal avenues being 132 feet, 129 miles of streets are paved with asphalt, block and macadam. The area of 13,900 acres has been covered by 185 miles of sewers, 330 miles of paved and graded streets, 100 miles of which are boulevarded and 125 miles of sidewalks. Approximately 200 miles of water mains have been laid down since the city's incorporation 36 years ago. In 1800 the proportionate assessment value of the city was \$18,612,110; in 1911, \$25,977,461; in 1912, \$28,615,816; in 1913, \$62,727,350; in 1914, \$89,511,727; in 1915, \$131,402,800 and in 1916, \$157,698,212. Winnipeg is the wholesale and jobbing centre of Manitoba, Saskatchewan and Alberta. It has 23 chartered banks with forty-two suburban branches in the city. Bank clearings: 1910, \$106,366,720; 1911, \$369,868,170; 1912, \$504,585,944; 1913, \$599,667,376; 1914, \$611,111,891; in 1915, \$770,519,332 and for the first ten months of 1916 clearings show a gain of over 160 million a month over that of 1915. The city contains 122 churches and missions, 33 public schools, with an enrollment exceeding 17,000; also six parochial schools with 1,200 pupils, six colleges, a university, provincial agricultural college, academies, ladies' schools, the Provincial Government buildings, Court house, gaols, chief offices of the Dominion Government in the West, fine city hall, a free library—costing \$110,000—two railway depots, costing over \$1,200,000 each—erected recently—Industrial Exhibition buildings, extensive markets, up-to-date fire, police and water systems. The electric street railway operates 200 cars on 66 miles of city tracks and 11 miles of suburban lines. A permanent and volunteer military force is located here. New buildings erected in 1914-15, amounted to \$7,558,515; in years 1913-14 \$26,187,350; years 1912-13, \$21,562,200; in 1911, \$9,226,325, and for the first ten months of 1916 an expenditure of \$13,663,000, giving a total for the past seven years and ten months of \$73,638,875 in new buildings. These facts give some idea of the progress being made. The grain business of the Canadian West centres in Winnipeg, and for the last year the inspections exceeded 88,000,000 bushels, placing Winnipeg as the greatest grain market on the American continent. This is evidence enough of the nature of the soil tributary to Winnipeg. In addition to agriculture, a considerable fishing business is done in the large Northern Lakes, and timber and mining enterprises are being developed on its shores. Winnipeg city owns and operates its own asphalt paving plant, its own quarry, street lighting, water works—including high pressure fire system of 300 lbs. pressure for fire protection. Winnipeg is now in a position to encourage manufacturers by affording cheap power. On the Winnipeg River a total of 60,000 h.p. is being developed by the city, which is to be sold to consumers at prices that will compete with any city in Canada. The value of the factory output is now estimated at \$36,000,000 annually, which is an increase of over 100 per cent. in the past 10 years. Over 14,000 factory hands now find employment in the 236 successful plants operating. Take this record in industrial growth and add to it the wholesale turnover of \$100,000,000, and the enormous grain trade, handled in the city, makes Winnipeg the central market and capital city of commerce of Western Canada.

**Portage Avenue** The manner in which Portage Avenue has built up is one of the surprises of a truly wonderful city. Flanked on both sides by broad granite walks and with over 100 feet of clear asphalted roadway it makes this street one of the finest modern business thoroughfares on the continent.

**A** Holiday on Main Street, Winnipeg. Main Street is the chief thoroughfare of Winnipeg. It is 140 feet wide, beautifully paved and has wide granite side-walks. Double electric car tracks traverse the full length of the street within the city limits and fine buildings line its sides, making Winnipeg's principal street big, dignified and impressive—the more so since it is familiar history that it is no more than thirty years since what is now Main Street, was a muddy prairie trail.

**Biggest Railroad Yards in the World.** The Canadian Pacific yards at Winnipeg are the largest in the world owned by one corporation. These yards contain 120-250 miles of track and extend for about three miles West of the station on Higgins Avenue. Large as they are the C.P.R. yards are none too great for the great traffic in grain, live stock and produce that must be handled through Winnipeg.

Banning District, Main Street. Window's Lark are noted for their architectural effects of their buildings. Much attention has been given to this feature of their architecture, and the results are shown in this photograph.

**Banking District, Main Street** Improvements for expansion of business are being made constantly and new bank buildings are in process along both Main Street and Portage Avenue. Within the short radius of this photograph, two new Bank Buildings are under construction. Both that will cost over \$2,000,000.

**Big Bank Buildings.** Without exaggeration it can be said that Winnipeg possesses a greater wealth of bank houses than any other city or town in the continent. There are 22 chartered banks in Winnipeg, with a total paid up capital of \$80,269,254. These banks operate 12 suburban branches within the city and have over 500 branches in Western Canadian cities and towns. (See statement of bank clearings inside front cover)

**Main Street looking South.** Between Port George Avenue and the Assiniboine River is what is known as South Main street. With the opening of the new Union Depot here Winnipeg has added another important section to its already busy thoroughfares. Varant properties long standing idle are now valuable and sought for to supply the demand for new stores and business buildings.

already busy thoroughfares. Vacant properties long standing have  
the demand for new stores and business buildings.

**McArthur Building.** The new McArthur Block on Portage Avenue near Main Street is the tallest building in  
Winnipeg. It has twelve business office floors and is a thoroughly well fitted and centrally located block.  
What Winnipeg should be seen from the top of this building.

**William Avenue and Main Street** This corner is one where much private and public business is transacted. On the left of the picture is a big Bank Building with ten floors of offices and on the right is the City Hall. William Avenue cuts through the heart of the whole city section that lies west of Main Street.

he left of the picture is a big tank collecting water from the section that lies west of Main Street. William avenue cuts through the heart of the whole.

10

**Power House at Point-du-Bois.** View of the first section of Winnipeg's big Manitoba power house that will be completed in the spring of 1911. The natural water falls harnesses 1,425 feet high is set to cost \$1,475,000 by the dam which makes a mill pond of 6000 acres capable of developing 100,000 horse-power.

Winnipeg's Annual Exhibition,  
 at the grounds of the  
 Agricultural College.

the great holiday resort of the West. It is a place where you can get in touch with the great outdoors, purchasing  
 exhibit to be shown. The great crowd she is the only one who can see the exhibition meets in

Section of C.P.R. Stock Yards, Winnipeg. In 1906 a Winnipeg firm of live stock exporters led the world. The present yards are being extended and plans are under way for a big union stock yards that will give adequate room for the increasing trade. Winnipeg has four abattoirs with a total killing capacity exceeding 5000 head of stock per day.

Civic Power Plant. A feature of the Winnipeg 1910 Industrial Exhibition was a working model of the municipal power plant as shown in lower photograph. The upper view shows the Power House and water falls. The Winnipeg power plant will cost \$3,500,000 and will furnish 60,000 h.p., enabling the City to sell power to manufacturers at a low price and to supply, cheaply, the local demand for domestic and business purposes.

St. Andrew's Locks and Dam. Constructed by the Dominion Government at a cost of \$1,275,000. Opened July 1, 1910. The great work was placed in Winnipeg in 1908, water communication with Lake Winnipeg, a distance of over 300 miles, being made. The locks and dam are a great undeveloped resource that will now be brought into account by the growth of manufacturing in Winnipeg. The upper inset is Winnipeg's first warehouse, and the lower inset is an old time Red River tugboat.

Group of Factory Workers. A — 121 Winnipeg street — a trade chiefly, manufacturing is a considerable factor, and is growing rapidly. Fourteen thousand persons are employed in the city's shops and factories, and the value of the industrial output is now estimated at \$36,000,000. In 1900 the output was \$8,086,000 and in 1905, \$18,083,218.

**Manufacturers' Delegates' Sightseeing** Few cities are better equipped for convention purposes than Winnipeg. The Royal Victoria Hotel, shown here, is regarded by travellers as one of the best in the world. It is convenient to the C. P. R. station and belongs to the same corporation. There are sixty hotels in Winnipeg, ranging in class and rates from \$1.00 to \$5.00 per day.

Government Post Office at Winnipeg. The post office building now occupied by the department at Winnipeg, is a new and well appointed building, made necessary for an enormous increase in postal business. The new structure was opened for business in 1909 and now ranks as the third office in Canada in volume of business transacted.

Some of Winnipeg's Big Buildings. These have been put up within twenty years. The cost of them with permits for new buildings to the amount of \$86,779,625. During the seven and a half years ending July 31, 1910, Winnipeg has issued

A Street in the Wholesale Section - A portion of the Wholesale Section of Winnipeg - From a traffic which filled the tiny Hudson's Bay trading post that stood at the edge of the Red River Settlement, the wholesale trade of Winnipeg has grown to enormous proportions and now handles over \$100,000,000 worth of goods annually.

Donald Street, Crossing Portage Avenue. The big department store on the left takes up a whole block of Portage Avenue (on the left) and extends back two blocks along Donald and Hargrave streets. This is one of the largest stores in North America, employing over 3,000 hands. It has eighteen acres of floor space and has had eight additions made to its capacity during the five years it has been open.

City Hall Park. The small park in front of the City Hall shown in lower right view is one of the city's show spots. It is kept fresh and beautiful throughout spring, summer and autumn with seasonal flowers and plants. The upper left hand view shows a portion of the south side of Portage Avenue looking West. The lower left view shows the old Post Office where Winnipeggers called for their mail in 1880, and the upper inset the old City Hall.

New Business Streets off Portage Avenue. Streets that run off from Portage Avenue, share the growth of that splendid thoroughfare. Where these streets were wholly residential a few years ago, shops and stores are replacing the houses with great rapidity. The upper right insert is the new \$1,500,000 Union depot of the C.N.R. and G.T.P. systems. The lower left insert shows the magnificent C.P.R. station, the half-way cross continent stop for all tourist travel.

**Business Circle Growing.** "The outstanding feature of expansion in side streets off Portage Avenue." The demand for business block at great profit in these sections for extending the business limits, solid growth in Winnipeg's business section is shown in the above photograph of one of the locations is growing year by year, with the result that private homes are being purchased

From Business to Beauty. Many Wm. L. ... have ... business ... the downtown scene are transformed into ... streets as the ... extend into the dense parts of the city. The change ... from broad stretches of asphalt and wide sidewalks ... narrower pavements flanked by boulevards and shade trees.

Vegetable Show at Winnipeg. Although Manitoba farming is very largely wheat raising, the love of market gardening and mixed farming is not lost, and great progress has been made along these lines. All sorts of vegetables that grow in the temperate zone grow well here, and many kinds, such as cauliflower, potatoes, cabbages, cucumbers, pumpkins and squashes grow exceedingly well.

**Bird's Eye View Business Section Winnipeg** — Come with the writer to the top of the clock building the above photograph was taken from. Next at hand are the long business mobiles and carriages, heavy teams, electric cars and all the varied traffic of a great thoroughfare lies at your feet. Turn to right or left and you see the rivers flowing in a massive clasp. Close your eyes for a moment and fancy that you see all of this mighty city so sure to extend beyond where Winnipeg's limits now lie, and then look back for one last look at what has happened during these thirty-eight years and see, as all see who view this scene with the eye of understanding, the wonderful future that is in store for Winnipeg.

Large business blocks and fine log stories. Looking up Main St. and Portage Avenue with all their magnificent breadth and length and thronged with thousands of busy people, the river flowing past and the smoke of rushing engines rises to lose itself in the clear air. Far out from the busy centre the streets reach their long arms to embrace the country in wide and comfortable back for one brief moment to the picture inserted in the centre of this photograph and see Winnipeg as it was only thirty-eight years ago, a fort and trading post on the river. Open your eyes and look for Winnipeg the mid-continent metropolis of North America.

Broadway, Winnipeg. Broadway is one of Winnipeg's longest streets in length in the street. On Broadway are some of Winnipeg's Union Depot that faces the entrance of this broad avenue.

It is West from Main Street and runs west and is one of the whole street apartment blocks and homes and a union depot that is to be built soon near the new

A Parting of the Ways. The residential parts of Winnipeg have been laid out with care regard to art in landscape effects. A roadside plat at the intersection of streets in triangle or park have been used for miniature parks, embellished with trees and shrubs and forming beauty spots in the midst of the city's travel and traffic.

On the Crescent Curve. When the city was first laid out, the city would not have had splendorous and  
 the street itself was paved with gravel and  
 the houses were built on the high ground, and the  
 the city would not have had splendorous and  
 the street itself was paved with gravel and  
 the houses were built on the high ground, and the

A Winnipeg Street of Houses. This is an example of how Winnipeg lays out streets for homes. Asphalted carriage ways with grass boulevards and sidewalks along either side, make these streets clean, convenient and beautiful. There are sixty-four miles of asphalt pavements and a hundred miles of boulevards in Winnipeg.

## FORI GARRY.

[illegible]

Buffalo Bill at Fort Garry. When Cree War broke out, Buffalo Bill visited Winnipeg, and his whereabouts at the time prior to 1904 Fort Garry prove to not many years, well within the period of Garry that Fort Garry was captured and held for a time, by Louis Riel, as a stronghold for the rebellious against Canadian government.

The Center Boulevard. All Winnipeg streets, even those in the east end in north end, are generously wide. Some are laid out with a wide boulevard in the middle. The trees that are set along such streets as this, provide our trees, though and under the care of the Parks Board, the grass is kept well watered and green.

**Summer Foliage in Winnipeg.** So far from being barren of shady trees, the streets in and about Winnipeg are profuse of trees and shade. Many of these are natural but forestry and landscape gardening have produced striking and beautiful results along Winnipeg's fine parks, boulevards and estates.

City Park on a Holiday. The City Park, 276 acres, is a favorite resort for Winnipeg people on Sunday afternoon or to spend a holiday. A fine collection of animals are kept at this park that lies along the Assiniboine river and has great natural beauty which has been splendidly adapted and extended by the hand of man.

City Park Pavilion. The large building on the left is the City Park Pavilion. The upper right-hand picture is the bison enclosure and the lower right-hand picture is the bison enclosure. The middle picture is the City Park Pool, a large, rectangular pool, and is used by the people generally and on special occasions.

**Where Mothers Rest and Children Play.** The public parks of Winnipeg are well adapted for play and rest. Mothers take their children to play upon the green and shady lawns during the afternoons and long evenings while they themselves sit on benches conveniently placed and rest from their household toil and cares.

**The Beautiful Assiniboine** — The upper row shows that the river banks through Winnipeg are especially well wooded — Elms, oaks, larches and poplars growing in profusion. The river is sought for its beautiful stretches of water for boating, back of which are favorite drives for Winnipeg motorists. In its summer garb, the streets are delightfully cool and shady and the pavements are perfect for carriages or automobiles.

A Wide Expanse of Park Lawn. No better land could be found for lawns than the Manitoba prairie. It is level, smooth and splendidly rich and fertile. Planted to grass and well tended, it produces a fine growth of lawn carpeting. Flower beds flourish and supply good color effects in the landscape scheme. Motoring and coaching is popular through these park drives as shown in the miniature inserts of this photograph.

Shady Nooks and Spreading Lawns. Tall trees and shrubs that have rounded foliage shade the paths in Winnipeg's parks. These paths are smooth and well  
 graded and are set back each way from the paths and shrubbery in warm green stretches. There are numerous footpaths and, in the large parks, carrying  
 roads for those who drive or motor.

In One of the Smaller Parks. Scattered about the city in such a way as to afford the greatest amount of pleasure and convenience to the public, are numerous parks that range from one to ten acres in area. Nearly all of these parks are newly laid out, but trees and shrubs grow with astonishing rapidity on the rich prairie soil.

What Story Writers Feature. Winnipeg has labored widely and well to keep every natural feature of the parks grounds and to emphasize them as much as possible. The upper scene shows one effect of this wide endeavor. The lower left picture is a Winnipeg suburban street, well planned and kept. In the upper insert is shown what was known in 1877 as the "Edmonton Limited," starting on the western 1000 mile trail. At the bottom is shown the first engine to reach Winnipeg in 1883 now on exhibit in front of the C.P.Ry depot, in Winnipeg.

**How Hedges Grow.** Hedges grow in Winnipeg at par with other vegetation and live through the winter with less damage than in more southern latitudes. Backed by trees and skirted by lawns, these hedges are wonderfully effective and remind travellers of Old Country estates.

**School Cadets Drilling.** Winnipeg schoolboys are formed into companies and are drilled in regular military form under a thoroughly competent instructor. At stated intervals, the school cadets are gathered for a "drill" and make a splendid display of the value of military drill in youth. There are 19,000 school children in Winnipeg.

**City Playgrounds Scene** Although Winnipeg is a comparatively young city, it is exceedingly well equipped for educational purposes. One of the recent extensions of the educational system is the addition of a public playground system. In summer vacation time, these playgrounds are well patronized and are a great boon to mothers and children.

**Winnipeg's Fine Apartment Houses.**—Apartment blocks are a leading feature in the expansion of Winnipeg and some of them are equal to the highest class being constructed in the big cities of the continent. There are a greater number per capita in Winnipeg than any other city in Canada. Forty-five apartments were built in 1909 at a cost of over \$2,000,000.

Charming Homes of Winnipeg. Great cities have fine estates. Winnipeg is not unlike others in this respect. It is a city of exceptional fine homes which gives richness and color to its average drives and tells of comfort and sweet content. To add to the restfulness and charm of the residential sections the boulevards under civic control are made bright with flower beds and blooming shrubs.

Horse Show Amphitheatre — The Winnipeg Horse Show Amphitheatre is one of the finest buildings for Horse Show purposes on the continent. It is also used for large gatherings of various sorts. The annual horse show is a big social event as well as being the occasion for showing a large number of especially fine horses, for which Winnipeg is justly noted.

**Churches of Winnipeg.** Winnipeg is famous for its fine churches, all of which are largely attended. There are 122 churches and missions and the last census taken show the following denominations based on per 100,000 population: 18 per cent Presbyterian, 17 per cent Church of England, 15 per cent Roman Catholic, 13½ per cent Methodist, 5 per cent Baptist, 3 per cent Hebrew, 7 per cent Evangelical, 3½ per cent Congregational, 1 per cent Salvation Army, 7½ per cent other denominations and 8 per cent no preference.

**Educational Facilities Unexcelled.** The City contains excellent facilities for education, having 33 public schools, with an enrollment of 17,000 pupils, there are six Parochial schools with 1,200 pupils, six Colleges and University, Provincial Agricultural College, Academies, Teachers' schools, and two magnificent technical schools under completion to cost \$400,000 each.

**Winnipeg Electric Railway System.** No city on the continent has in operation a better, more up-to-date street railway system than Winnipeg. The cars are big, comfortable, and convenient, the fares, six and eight tickets for a quarter, are cheap. In the year 1900 less than 750,000 people were carried, in 1909 the number had increased to 26,000,000.

**Western Farm Scene** The fields, the prairie and the farms of Western Canada are calling out for young people of purpose, of industry and ambition, and guarantees to them future happiness and prosperity. No country in the world can offer equal advantages and greater returns in mixed farming than this section called Western Canada. In Manitoba mixed farming is profitable and much available land open for settlement.

**Wheat: the World's Wealth.** The wonderful growth of Winnipeg has for its basis the solid foundation of agricultural resources. From Government sources it is estimated that there are 200,000,000 acres of wheat lands available in Western Canada that will produce returns such as is pictured by positive proof production in the photograph shown above. Only seven per cent. of the wheat lands of Western Canada are occupied.

## WESTERN CANADA THE LAND OF OPPORTUNITY. JUST PLAIN FIGURES

Proving the West's substantial progress and its possibilities for profitable employment of capital and energy.

### MANITOBA, SASKATCHEWAN AND ALBERTA

	Land—Acres
Manitoba	41,169,098
Saskatchewan	155,092,480
Alberta	160,755,200

Only 8 per cent. of arable land under cultivation.

### GRAIN ACREAGE, 1910 WESTERN CANADA

	Acres
